professional welding supplies

PROMAX HD 10-300 Series Welding Positioner

- Has the ability to self-lock and the worktable can be turned between 0-90deg.
- Has a centre through hole which is convenient for pipes to be clamped and positioned and will improve accuracy and quality of welding.
- Special anti-electromagnetic design reduces the high frequency interference of TIG welding and can improve the accuracy and quality of welding.
- The welding chuck and adjustable welding gun support can be furnished to fix the position of the welding torch.

Model	HD-10	HD-30	HD-50	HD - 100	HD-200	HD-300
