

# GT9005Ei **ELECTRIC START** INVERTER GENERATOR

With 8000W maximum output the GT9005Ei is perfect for home back-up, construction site or emergencies where perfect power is essential. Being inverter, it is safe to run sensitive electronics such as computers, and also produces enough output to keep your main household appliances up and running for up to 15hrs in the event of a power outage. The 32amp outlet means you can connect the full capacity of the generator through this single socket - great for running welding machines or connection to a house power system.

**1x**  
15A 230V

OUTLETS

- **8000W Max 7500W Rated**
- **Electric Start**  
*Push Button Electric & remote start with back-up EZ start recoil makes starting quick & easy*
- **Powerful 4-Stroke OHV Powerdyne Engine**  
*Ultra-compact engine with the ultimate in durability & reliability*
- **Smart Throttle**  
*Matches engine speed to power draw for quiet operation and fuel savings*
- **Digital Control Panel**  
*All engine management and output parameters displayed clearly in one place, including voltage, amperage, frequency and running hours.*
- **Low Oil Shut Down**  
*Prevents damage to generator if oil level is low*
- **USB Charging**  
*Twin USB outlets for phones and other USB type chargers*
- **All Day Power**  
*25L Fuel Tank for up to 15hrs runtime (@25% Load)*
- **Sturdy Design**  
*Rugged and compact design with steel roll cage protection and solid wheels for portability around the worksite*

**...for safe powering of sensitive electronics!**
