BUILDERS. INNOVATORS. REVOLUTIONARIES.

We're basically builders.

We build quality products, from the ground up. We build long-term relationships with resellers and users. We constantly innovate to allow us to build bigger and better products. We build quality brands that resellers can rely on to deliver time and again. We help them build sales and increase their basket price. We build the best grime wipes on the market.

Then we start from there and build a better one.

BUILT TO FIGHT DIRTY.

We make all our products in our own UK factory, giving us complete control over the quality and monitoring process.

This allows us to directly implement new ideas, technology and processes to create wipes that people want.

**I HAVE NO IDEA
HOW YOU MAKE
WIPES THIS
AMAZING BUT KEEP
UP THE GOOD
WORK!**

It also means we're able to work towards our stringent environmental targets, as we control all the inputs and outputs.
