

Silent, Safe, Instant & efficient Infrared heat for Workshops, warehouse workstations, garages, hospitality & event venues and more!

The IRH14 Infrared Diesel Heater is a silent, effective and powerful 14kw heat source that is ideal for garages, workshops, hospitality venues and other commercial applications. Due to its unique and patented triple combustion process, the IRH14 operates with virtually zero emissions, with 99% of the exhaust being CO2 and water vapour. The ceramic coated heat exchangers radiate perfectly consistent and powerful FAR Infrared heat that takes away winter chills and will delight your patrons and workforce.
