PS3611ES

3600psi 11L/min Cleaning Power!

8HP OHV POWERDYNE "ONE TOUCH" PUSH BUTTON START ENGINE

The PS3611ES is built tough for the serious home user, lifestyle property owner, farmer and many more applications! With a heavy duty roll cage frame and handy wheel lock brakes means cleaning on slopes has never been easier!

The powerful 8hp OHV Powerdyne engine features a "One Touch" push start for super easy starting. This, combined with the Cougar® Series high pressure pump (with ceramic coated stainless pistons and brass head) makes a super durable machine, built to last the distance in performance and long term reliability. At 3600PSI and 11L/min at your disposal, the PS3611ES is the ideal solution for your cleaning requirements.

- Cougar® Series high pressure pump with ceramic coated stainless pistons and brass head for super durability
- Heavy duty roll cage frame with wheel lock brake
